About Me ———————

I recently graduated from the Department of Information and Communication Technology at Mawlana Bhashani Science and Technology University. I am passionate about web development and have solid experience with HTML, CSS, JavaScript, React, and Angular. I have worked on various projects, gaining hands-on experience in both front-end and back-end development, including MongoDB databases, and using Git for version control.

I excel in problem-solving, adapting to new technologies, and have strong communication skills essential for remote work. I am eager to contribute to innovative projects and build user-friendly web applications in a dynamic remote team environment.
